BESPOKE
GLASS
LIGHTING

**“I COLORI SONO AZIONI DELLA LUCE,
AZIONI E PASSIONI.”**

J.W.GOETHE

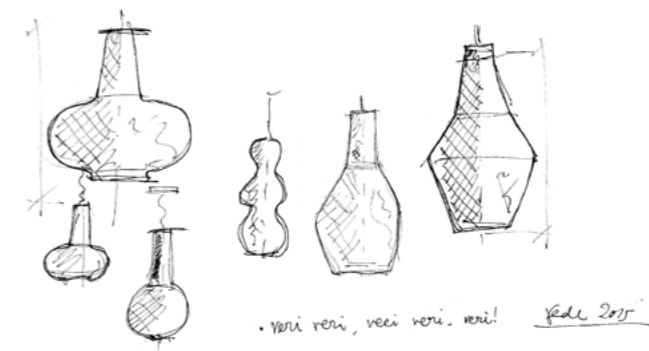

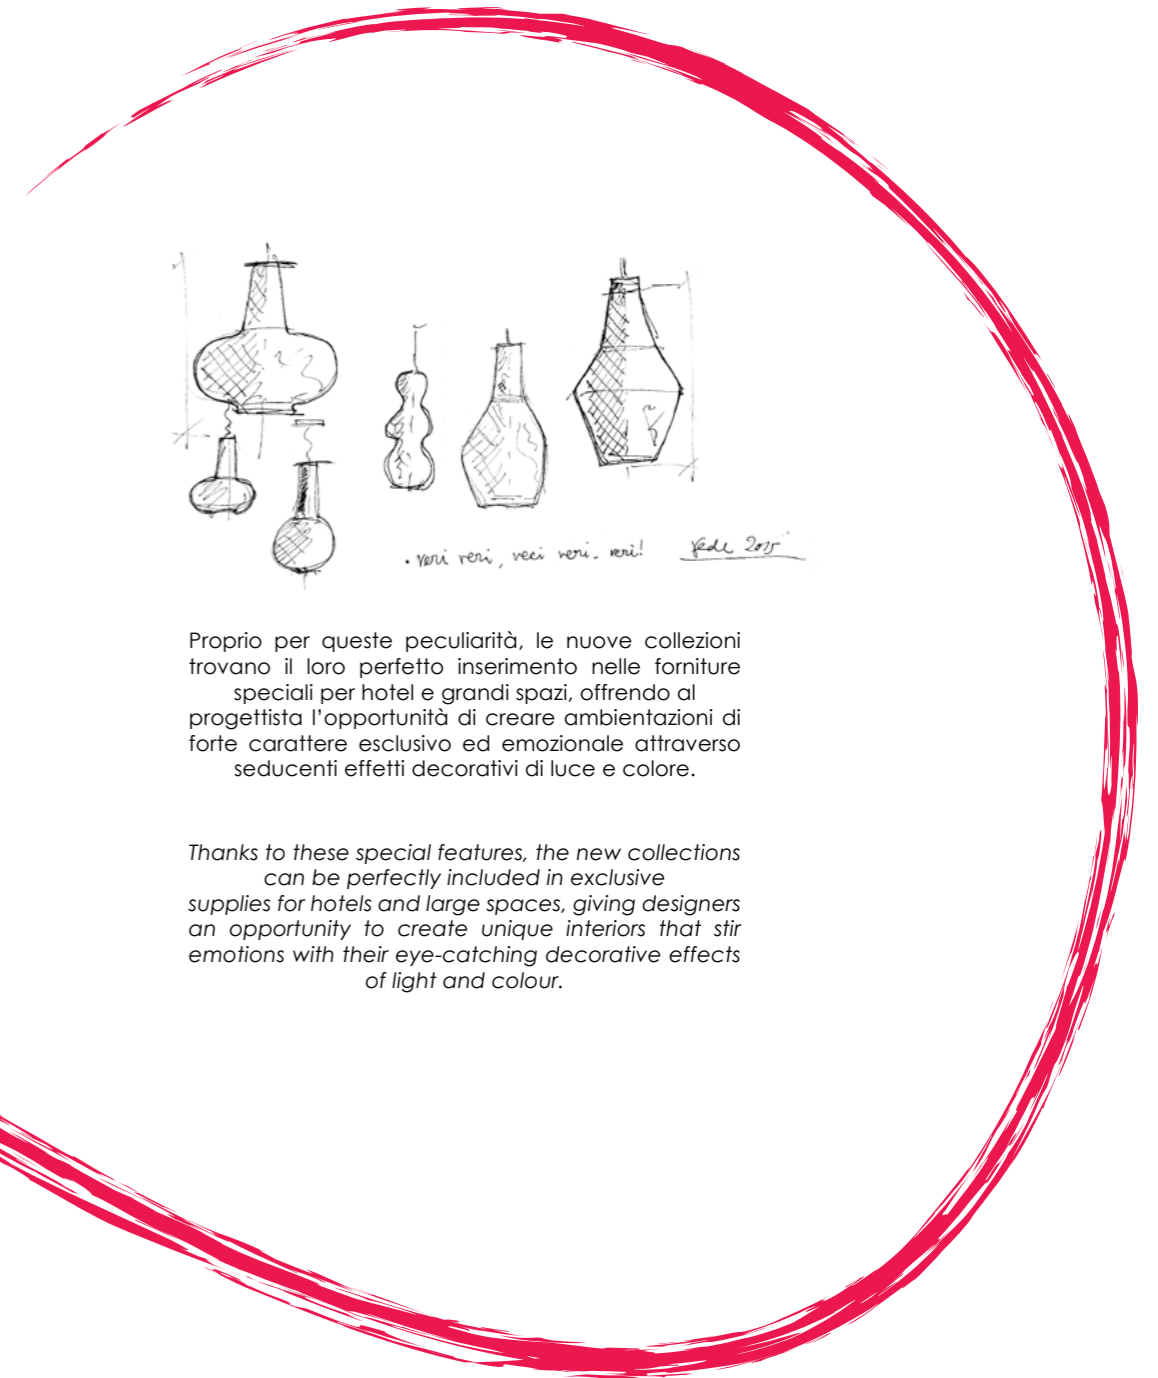

Parte da un unico concetto compositivo il nuovo progetto di vetri soffiati per illuminazione di Federico de Majo. Queste linee di prodotti sono infatti "componibili" che trovano ideale spazio negli stessi portacomponenti dai quali vengono illuminati da sorgenti a LED. Infinite possono essere le varianti di forma e distribuzione di questi vetri, di sapore squisitamente veneziano per matericità e tipologie di esecuzione. Tra realizzazioni e proposte di installazioni, le collezioni a catalogo sono solo l'inizio di un percorso alla scoperta di nuove possibili soluzioni, da ideare e creare insieme a quei clienti che sceglieranno di affidarsi alla nostra trentennale esperienza nell'ideazione di progetti di illuminazione e lavorazione artistica del vetro. Ogni singolo dettaglio dei prodotti firmati Federico de Majo, dalle varianti cromatiche alle finiture dei metalli, può essere personalizzato e modulato in base alle esigenze progettuali e di gusto.

**“COLOURS ARE THE ACTIONS OF LIGHT
AND PASSIONS.”**

The new blown glass lighting project by Federico de Majo is based on a single modular concept. Such product lines are, in fact, modular, blending perfectly into the space in component holders that provide light from LED sources. With their exquisite Venetian style with regard to materials and production techniques, these glass elements offer endless variations in shape and composition. With their creations and installations, the catalogue collections are just the start of long path to discover new potential solutions that can be designed and created with customers who decide to rely on our thirty years of experience in designing lighting projects and artistic glasswork. All the details of products by Federico de Majo, from colour variations to metal finishes can be customised and adapted to meet all requirements of design and taste.

Federicodemajo

Proprio per queste peculiarità, le nuove collezioni trovano il loro perfetto inserimento nelle forniture speciali per hotel e grandi spazi, offrendo al progettista l'opportunità di creare ambientazioni di forte carattere esclusivo ed emozionale attraverso seducenti effetti decorativi di luce e colore.

Thanks to these special features, the new collections can be perfectly included in exclusive supplies for hotels and large spaces, giving designers an opportunity to create unique interiors that stir emotions with their eye-catching decorative effects of light and colour.

Eventuali apparenti imperfezioni, quali bollicine, sono il risultato di una lavorazione eseguita a mano, e per questo sempre diversa. Segni distintivi che attestano il pregio e l'esclusività dell'oggetto. Data la lavorazione manuale, il peso e le finiture di ogni singolo esemplare possono presentare variazioni.

Any apparent imperfections such as small bubbles are the result of work done by hand, and therefore always different, distinctive signs which attest to the quality and exclusivity of the object. Weight and finishing may vary from item to item due to the hand made production.

ROMEO E GIULIETTA

Design Federico de Majo 2015

Vetro soffiato a bocca e lavorato a mano con finitura a rilievo "balloton" in due forme e in diversi colori. Parti metalliche verniciate grigio o bianco opaco. Cavi in tessuto grigio. Prodotto personalizzabile.

Handcrafted mouth-blown glass with "balloton" relief finish in two shapes and in various colours. Grey or white painted metal parts. Grey fabric cables. Customizable product.
