Tutte le boiserie sono dotate di attaccaglie per il fissaggio a muro con sistema antiganciamento. L'ingombro delle attaccaglie crea uno stacco perimetrale dalla parete di 0,5 cm. Assicurarsi preventivamente che la parete sia idonea a sostenere il peso degli elementi pensili nelle condizioni di utilizzo del cliente.

All wall panels come with hanging brackets for wall mounting with accidental release prevention system.

The depth of the hanging brackets means the panels sit 0,5 cm off the wall around the edges. Make sure beforehand that the wall is strong enough to take the weight of wall units under the customer's normal conditions of use.
