THE COMPANY

The company began its story more than 40 years ago, thanks to its President Paolo Viscovich, and has since then accumulated experience in the luxury and outdoor furniture sectors.

Since its establishment the company is continuously evolving and growing in global markets as an organisation with Padua-based headquarters and showroom, but offices and showrooms also in emerging markets.

Capital initially develops in-house creative designs and works its way through all stages of material research and production. We actually believe that the value of in-house development is being passed on to the final product in terms of uniqueness and excellence.

MATERIAL QUALITY

We are not influenced bound by industrial concepts but by artisan production and method: not being bound by use of certain materials or technology and being able to produce in cycles that depend on our hands proves that we have no limit except our own mind. Capital is a company where creative spirit and know-how are nourished by the passion for our work and the needs of customers.

HANDCRAFT CARPENTRY

Wood, metal, marble, fabric and leather are our favourite materials: we believe that the added value, recognized worldwide as

'Made in Italy', consists in knowing how to work with these materials and combine them to create unique pieces. Each artifact we create has a natural consequence and impact on the environment: we try to ensure that Capital products respect the environment and do not harm those who manufacture them.

DESIGN TAILOR MADE

Let's add up an adaptable design that meets different styles and moods.

The mix of materials, fabrics and finish is today the distinguishing element of the most exclusive settings: our aim is to add value to outdoor areas, giving them comfort and making them recognizable.

ITALIAN MATERIALS

The continuous search for natural materials of Italian origin guarantees highly controlled and carefully selected products,

HANDCRAFT

as expression of a value that furniture will be enhanced through the artisan production. Capital and Atmosphaera offer you a selection of unique and special materials and processes, a part of which may be found in our sample collection.

QUALITY

Nevertheless, the company aims at moving forward always using new materials requested by customers on exclusive tailor made creations. We always use superior, naturally seasoned and dried woods.

DESIGN TAILOR MADE

Starting from market and customers demands, Atmosphaera Creative Lab focuses on research and products development, using innovative materials suitable for Outdoor use.

OUR LOCATION

OFFICES IN THE WORLD

Atmosfera Company | Via Cesare Battisti, 68 - 35010 Limena, Padua, ITALY

Our showroom is situated at 30 km from Venice, adjacent to our headquarters. It's a space where you can see the set-up pieces of the collection but above all, like in the atelier of a tailor, you can see materials and creative ideas taking shape according to customer requirements. Therefore, it's the place that best describes us and illustrates our approach to customer projects through the choice of products and materials to be introduced in their homes. The same concept has been applied in Moscow with a space dedicated to professionals of this branch, architects, interior designers and customers to brainstorm together in a design atmosphere.

Prisma Collection, an evolution of geometric shapes inspired by precious stones. This Collection designed by BOATTOMARTINO Studio from Milan expresses a refined and contemporary luxury. The Madame chair finished tube quilted leather as a new interpretation of luxury and timeless elegance. Nature designed the elements from which we take inspiration. Capital products have an international style keeping the knowledge of tradition. We believe that the space you live express your personality; your aims, your ambition and your attitude.

Details make the difference to let interior become comfortable and precious. Allure sofa fills up the space giving the sensation of elegance and sophistication. Eclectic service table and Audrey armchair: create an unconventional and exclusive décor and describe perfectly the Capital look. Its contemporary design together with its eclecticism gives to the Audrey armchair a sophisticated and elegant character. The Eclectic service table, with its simple copper shapes goes along elegantly with Audrey armchair satisfying all needs.

Sophisticated and stylish, Diva armchair fills your spaces thank to its finely quilted diamonds. The refinement of colours and geometric lines of Prisma sideboard makes all your spaces very chic. The house is for us a performance of our soul, an always variable set-up of what we are and we would like to be. Doors with serigraph are the soul and connotative elements of the collection suitable for any location,

fitting all styles thanks to its minimal and sophisticated design, always careful to details. Fabrics and metals used are rigorously Made in Italy, just like the Know-how and advanced craftsmanship that leads to high class finish. The bookshelf as a design element stylistically defines the living area. Much more than a container for books alone, the bookshelf integrates with daily habits through a search of functionality within current lifestyles. Athena bookcase boasts an original shape made of simple lines.

ATMOSPHERA

SOUL OF OUTDOOR

To discover the relationship with nature. To conceive the external space as the real people-oriented space, where time and matter blend together in a unique dimension.

ATMOSPHERA SOUL OF OUTDOOR

To discover the relationship with nature through direct experience and favored observation of environment. To conceive the external space as the real people-oriented space, where time and matter blend together in a unique dimension. The endless research of innovative solutions explores a lot of situations, complex markets and different cultures:

from the domestic environment to hospitality spaces, from wellness world to the care of public space in a professional environment. This is the design and productive challenge, that drives us in the development of our products and projects, in the study of suitable materials and in the care of productive details that make our products unique pieces. This is the philosophy that goes with our research of beauty and living well. This is our spirit, our soul of outdoor.

Designed by CAPITAL COLLECTION Studio

9.Zero is a modular combination of seats. The 9 modular bases are easy manufacturing so they can be composed in different solutions to satisfy the different requests of space and functions. The frames are made of nine slats each one is 9 cm made of polished and oiled Indonesian teak. The seat and back cushions are made of drained foam covered by outdoor fabrics of Atmospha Collection.

According to what has been declared by Dictionary Collegiate, Hipster is a young follower of all forms of alternative culture expressing his own dissatisfaction with the rules by recapturing behavioural and costume code of the second half of the century. We have evolved this inspiration into a product: Hipster Sofa. Which represents a contemporary and innovative concept, expressed in hybrid and mixed spaces such as verandas, covered terraces, porches and glazed rooms.

Maximum attention in the choice of materials, style and finishing. These are the key words that best describe the Twiga Set. Through colour games created by infinite fabric options, your spaces will be enriched with accessories designed for classy, romantic and timeless environments.

The Twiga shapes are hand-woven, made of a synthetic resin of high density extruded polyethylene. Material features are easy to clean, resistant to salt water, UV scratch protected, lightweight soft and recyclable. Thanks to its material features, Twiga Set can be used outside all over the year.

Designed by CAPITAL COLLECTION Studio

Harmony, serenity, reflection, the sunset transform our mind and light up any landscape. To relax and enjoy the sunshine we created Infinity sunbed. The sunbed aluminium frames are combined with hand-weave rope and they décor the space thanks to its Indonesian teak wood. Moreover the material is characterized by soft appeal similar to fabric textile, it is UV resistant and quick drying. These Sunbeds are able to satisfy every need and can be placed anywhere.
