

SUSPENCE NOMAD

BY GAMFRATESI

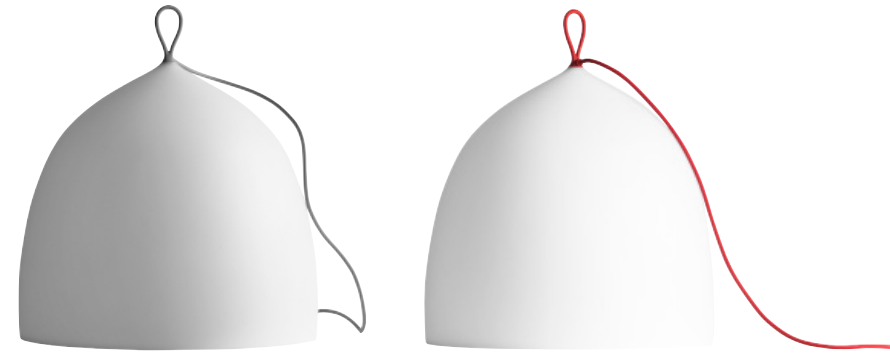

Suspence Nomad is GamFratesi challenging conventional thinking in the area of lamp use.

Nomad is designed to be placed on a horizontal surface e.g. a floor, staircase or terrace. It carries an appeal to be moved from place to place, without a permanent residence – just like a nomad.

The lamp is easily moved by lifting the silicone handle at the top.

Nomad is made of polyethylene, which is a tough material, that gives off a soft, diffuse light – creating a cosy atmosphere.
