

FRITZ HANSEN

NAP™ PRODUCT FACT SHEET

NAP™ is a series of light chairs, armchairs, bar- and counter stools designed for optimum sitting comfort regardless of the sitting position.

NAP™ IS AN ABBREVIATION OF NORMAL, ACTIVE AND PASSIVE – BECAUSE SITTING IS IN ACTUAL FACT CONSTANT MOVEMENT.

The NAP™ chair comes in several variants: With 4 legs (of steel or wood), with a sled base or as a counter- or bar stool. All variants are available with and without armrests.

The shell has a high gloss back and the front has a matt finish with ripples. The chair is also available with seat upholstery which can be mounted upon delivery or purchased separately.

The base is available in 14 mm steel tubes (powder coated in colours matching the shell or chromed) and in natural oak veneer legs. The sled base as well as the bar and counter stool are only available with legs in chromed steel. To minimise undesired noise and the risk of floor marks, the front and back leg ferrules have different sizes on the 4-legged versions in steel. The leg ferrules are made of black TPE.

DESIGN

Kasper Salto, 2010

ENVIRONMENT & TESTS

For environmental reasons the chair can easily be dismantled and recycled. The main chair component – nylon, is a plastics material used in our everyday lives, and the chair is therefore suitable for recycling. The plastic can be granulated, and steel parts can be recycled.

The chair has been tested and approved according to EN 15373 for Strength, Durability and Stability - test level 2 general contract use, EN 1728 Strength and Durability and EN 1022 Stability.

WARRANTY

Registration with the product ID number must be made within three (3) months from the date of purchase, otherwise the extended limited warranty will not apply.

Years of warranty:

5 years covers: Fabric, Base: Powder coated, Wood.

10 years covers: Base: Steel, Shell.
