Base + Shade

[En] → The feature of the collection is the double light emission. The light source, in fact, is contained both in the base of the lamp as in the lampshade. This allows you to customize completely the light of the lamp.

[It] → La caratteristica della collezione è la doppia accensione. La sorgente luminosa, infatti, è contenuta sia nella base della lampada che nel paralume. Ciò dà all'utente la possibilità di personalizzare l'emissione luminosa, adattandola alle proprie esigenze.
