

IL LOFT / COLLECTION / SOFAS / FLY CAPITONNÉ

## Fly Capitonné

Two or three seater linear upholstered sofa, in supple, fluent shapes; the large, enveloping back has an arched, convex profile and the back-support cushion rests against it. The seat, which is gently curved, expands onto ample cushions. A single end, either left or right, completes the sofa: it is a deep, hollowed back, almost like a deckchair, which contains the lengthened seat. The paw-like legs lift it up off the ground and make the whole of the fitted units light: the seat, the back and the arms. The supporting structure is made of steel, the padding is polyurethane and the covers are made of fabrics, leather or microfibre from our collection. Button tufted version.
