

IL LOFT / COLLECTION / TABLES / ALPHA

Alpha

A table that surprises for its kaleidoscopic character: each point of view stirs different emotions thanks to the geometries and legs positioning. The slender profile of the top shaped as a flute mouth hole and the accurate selection of finishes allows amplifying the surprise to discover unusual views and suggestions. At the same time, the peculiar design of the structure makes it suitable to house tops and shelves of various sizes, combined to the possibility of endless compositions.
