

**Scocca in integrale morbido “soft touch”,  
materiale a bassa densità gradevole al  
tatto che presenta resistenza meccanica  
molto elevata e particolare elasticità.  
Le gambe in acciaio satinato permettono  
un uso in esterni, al coperto.**

The shell of the Nine eighteen chair is produced in soft integral foam called “soft touch”. This new low density integral material, gives the product a soft and nice touch sensation. Soft touch has a high resistance thanks to it’s natural elasticity. The legs of the chair are in brushed stainless steel, that gives the possibility of an outdoor use under a roof.
