## Visavis 2

The Visavis 2 visitor and conference chair is a convincing combination of aesthetic restraint, structural clarity and superb comfort.

Due to the shape and construction of the tubular steel frame, this cantilever chair is extremely comfortable. The free suspension of the seat allows it to respond to the sitter's movements with slightly springy flexibility. The backrest is made of flexible plastic with integrated armrests. Its special construction not only provides solid support to the spine, but also allows a high degree of mobility. Perforations in the surface ensure constant air circulation. All of these elements are not just aesthetic features, but essential elements of comfort.

For use in training venues and for mass seating in auditoriums and other large spaces, Visavis 2 is available in a stackable version, with row connectors and with writing tablets.

Visaroll 2 is a highly versatile and comfortable four-legged chair on castors. It is distinguished by its mobility and universal suitability not only as a task and visitor chair but also as a stackable space-saving chair for conference venues or commercial uses. Especially in small rooms and for spontaneous meetings, Visaroll 2 provides a practical and comfortable seating solution.

## Visaroll 2

### Visavis 2

- **Backrest and seat:** plastic backrest with integrated polyamide armrests, basic dark or soft light. Back with round perforations in a grid pattern. Polyurethane seat cushion. Covers in fabric or in leather with double seams on a flat seat cushion.
- **Base:** tubular steel, powder-coated in basic dark or chrome-plated with polished finish. Bases with a polished chrome finish are also available in a stackable version (max. 3 chairs).

### Visaroll 2

- **Backrest and seat:** flexible backrest with integrated polyamide arm pads in basic dark or soft light. Back with round perforations in a grid pattern. Polyurethane seat cushion. Cover in fabric with double seams on a flat seat cushion.
- **Base:** four-legged tubular steel base with polished chrome finish.
- **Stackable:** up to three chairs can be stacked on the floor.

# Laser Home/Office, F40

With its distinctive woven structure, Laser makes a robust and striking cover fabric. The varied palette offers a wide selection of colours, with the duotones showing off the woven structure to even greater advantage. Practical and easy to care for, as well as durable and highly abrasion-resistant, Laser is also well suited for office environments.

Laser is available in 35 colours.

Material	100% polyester Trevira CS
Weight	520 g/m <sup>2</sup> (15.3 oz/y <sup>2</sup> )
Width	145 cm +/- 2 cm (57")
Abrasion resistance	40,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

# Plano Home/Office, F30

Plano is a robust plain weave with a flat, even texture. The wide palette of duotones with new, delicate washed-out shades includes many relatively neutral hues, a good number of which are coordinated with the Hopsak colour range. Thanks to its durability and longevity, Plano is also an ideal choice for office furnishings.

Plano is available in 39 colours.

# Twill Home/Office, F6o

The high percentage of natural fibres gives Twill very pleasant tactile qualities and an inviting appearance. Extremely durable with excellent abrasion resistance, it combines the qualities typically found in home furnishings with the demanding requirements of the project sector.

Twill is available in 18 colours.

Material	30% polyamide, 70% new wool
Weight	325 g/m <sup>2</sup> (9.6 oz/y <sup>2</sup> )
Width	155 cm +/- 2 cm (61")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

# Leather Home/Office, L20

The standard grade leather used by Vitra is a robust cowhide leather, dyed-through, pigmented and embossed with an even grain pattern. Since it is hard-wearing and easy to maintain, it can also be used in office environments.

Leather is available in 16 colours.

Material	Robust cowhide with a distinctive, even grain
Fastness to light	Type 6
Thickness	1.1–1.3 mm
Fastness to rubbing	Grade 4 dry and wet
