MedaSlim

MedaSlim is a robust universal visitor chair that offers exceptional comfort. The elegant and sleek chair can be used wherever comfortable seating is required for extended periods of time: offices, conference and meeting rooms, auditoriums, restaurants and cafés.

The flexible backrest frame, seat and front legs are moulded in one piece and adapt to the user's body movements. Together with the breathable netweave fabric, the design ensures comfortable sitting over long periods.

Materials

- **Backrest:** netweave sling cover (Netline).
 - **Seat upholstery:** polyurethane foam padding with fabric or leather cover.
 - **Armrests:** die-cast aluminium with polished or chrome-plated finish or powder-coated in basic dark.
 - **Base and backrest:** backrest frame, front legs and seat shell moulded from a single piece of fibreglass-reinforced polyamide (basic dark). Back legs in aluminium with polished or chrome-plated finish or powder-coated in basic dark.
 - **Optional:** MedaSlim can be equipped with row connectors and row numbering elements for mass seating.
- **Note:** only MedaSlim chairs with chrome-plated legs are suitable for stacking (up to 5 chairs). The polished and powder-coated versions should not be stacked as this could scratch the surface.

Nova Home/Office, F20

Nova is a classic fabric for use in office environments. Distinguished by clear colours and a fine texture, this extremely robust and hard-wearing fabric has a soft surface sheen. The economical fabric serves as an ideal cover material for panels.

Nova is available in 12 colours.

Material	100% polyester
Weight	400 g/m ² (11.8 oz/y ²)
Width	142 cm +/- 2 cm (56'')
Abrasion resistance	60,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Netline Home/Office

Netline is a technical knit that makes an ideal cover material for the backrests of chairs, thanks to its elasticity. The semi-transparent mesh look of Netline emphasises its technical properties.

Netline is available in 2 colours.

Material	100% polyester
Weight	360 g/m ² (10.6 oz/y ²)
Abrasion resistance	40,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Leather Home/Office, L2o

vitra.

The standard grade leather used by Vitra is a robust cowhide leather, dyed-through, pigmented and embossed with an even grain pattern. Since it is hard-wearing and easy to maintain, it can also be used in office environments.

Leather is available in 16 colours.

Material	Robust cowhide with a distinctive, even grain
Fastness to light	Type 6
Thickness	1.1–1.3 mm
Fastness to rubbing	Grade 4 dry and wet
